

Gary Anderson

Fruit Heights City Council

I was raised in Salt Lake City and graduated from East High School I then served a two year mission in South Africa. I graduated from Utah State University with a Bachelor's degree in Mechanical Engineering. For the past 14 years, I have worked at WesTech Engineering as a professional engineer. I manage projects specifically involving gear boxes and vacuum filtration equipment for municipalities, power plants, food processing and mining. Through my employment, I have gained experience in managing budgets, providing estimates, as well as providing customer service technical support to my clients.

My wife, BreAnne, and I moved to Fruit Heights specifically to provide an ideal environment in which to raise our four children. We have enjoyed serving our neighbors through community service and educational opportunities, as well as youth organizations. We love the people and the rural feel here!

I am running for city council to serve, promote family values, and contribute to the community. I believe in small government, keeping taxes low, and in making Fruit Heights an even more enjoyable place to live.

Please vote Gary Anderson for Fruit Heights City Council.
