

# FRUIT HEIGHTS CITY MEET THE CANDIDATES

General Election 2021

Fruit Heights residents will vote for the office of Mayor and two City Council seats in November's General Election.

**Candidate for Mayor**  
**LAURA HUBRICH**

Hello! I am Laura Hubrich. My husband, Ron, and I have lived in Fruit Heights for 20 years. We have three children, and we love living in "The City of Good Neighbors". Prior to retiring in June 2020, I worked for the U.S. Postal Service for 33 years. I started as an Industrial Engineer and held many management positions. For the last 10 years I was the Executive Manager, leading 5 mail processing plants, and managed over 1,200 people.

Families are drawn to Fruit Heights for its charm, beauty and traditions. We need to preserve that while we continue to move forward in a changing world. That comes by having unity, safety and accountability in our city. In my career I did that by working with people. I worked with management teams, unions, and congressional representatives on a regular basis. As Mayor, my synergistic leadership will bring people together to accomplish the goals of Fruit Heights. After listening to the needs of our citizens, I will work closely with the city council and manager, and together we will find solutions to our most important issues.

I am excited to lead our city as your Mayor. I would love to know what is on your mind. Contact me at 801-549-8204 or at lauramh708@gmail.com.

**Candidate for Mayor**  
**JOHN POHLMAN (Incumbent)**

There are many Fruit Heights residents I have come to know, love, and admire. For those of you who may not personally know me, let me introduce myself. My name is John Pohlman and I was born and raised in Utah. My wife and I thoroughly enjoy residing in Fruit Heights and are happily raising our 4 children in this friendly community.

I have learned through my first term as Mayor and through my career that servant leadership is working hand-in-hand with people to ensure mutual success. We were able to accomplish a lot over the past four years, and that is why I am running for a second term as Mayor of Fruit Heights. I want to represent you and your interests. I will do that by collaborating and communicating with you on a regular basis. I expect you to hold me accountable when you hire me as Mayor. A leader discerns the right thing to do, has the confidence to admit when he is wrong and has the courage to do the right thing even when it is hard.

## Candidate for City Council Korrin Dickson

Korrin Dickson and her family have been residents of Fruit Heights City for 8 years. She is a mother to 6 children, all girls. She and her husband moved to Fruit Heights because they loved the small town feel and the open spaces. She and her family have been blessed to live in Fruit Heights and experience its friendly neighborhood atmosphere and the can-do attitude of its residents.

Professionally, Korrin has experience in everything from graphic design to product design, but her emphasis has been marketing and sales for a small Utah company that has navigated a changing business landscape over the last 25 years. In that time, she has learned how to think outside the box and find creative solutions to complex problems. Korrin is a graduate of the University of Utah with a BS in anthropology.

## Candidate for City Council Florence Sadler

My passion for government began when I attended Utah Girls' State while a student at Box Elder High School. Since then, I have endeavored to be an informed constituent and an active participant in local government. I worked at election polling locations, sought to be educated on a variety of issues, and helped with caucus meetings. I served our community on school Community Councils, as part of the Fruit Heights City Community Emergency Response Team, and other school and church opportunities.

As a wife, mother, and former public-school teacher, I understand the importance of local government and how strong communities can make a difference. As a member of the Fruit Heights City Council, I intend to support policies that build strong communities. I will study issues in depth before making decisions. With strong ethics and a listening ear I believe I can help strengthen our community.

## Candidate for City Council George Ray

What qualifies me to be a council member? I work well with others. I love collaboratively solving problems. Through iterative discussion, the team comes up with a better solution than the original good idea. I understand what it takes to be fiscally responsible. I run a small business and have managed medium-sized businesses in the past. I also know that we must continually invest in our future. I am good at finding pain points that can be solved with the right data at the right time.

A little about myself. Sharon and I have lived in Fruit Heights for ten years with our three children and consider ourselves fortunate to live here. I currently work at the Davis Technical College as faculty in the Software Development program. Once or twice a week, you can find me biking across the Shoreline trail, sending it (slowly) on the Fruit Loops, or running on the Gailey trail.
